

Functions/Solution

Primarily
matches DMs
with players

App tracks
location and
matches with
others in certain
radius
determined by
user

Players can
“apply” for
campaigns/
games

App like LinkedIn
or Tinder to
match Tabletop
Groups (DnD,
40k, etc.

Issues/Problem Statement

It can be hard to
find a group to
play games with
if you don't know
many people in
the area.

People might not
find the game
they want to play
(Like wanting to
play Call of
Cthulhu but
everyone is
playing DnD)

Account-Specific Functions

Accounts
will have
reviews from
past players
and DMs

DMs can
have
descriptions
of past
games

People can
have
preferences
for in
person/
online
sessions

People can
display
favorite
games and
games
they're
interested in
